

LATIN AMERICAN DEVELOPMENT STUDIES MINOR

NURSING + DEVELOPMENT STUDIES

Nursing asks: How do we care for individuals and communities?

Development Studies asks: Why do social conditions shape health outcomes?

Together, they prepare you to deliver equitable and culturally informed care.

SEE THE BIGGER PICTURE

- How do poverty and inequality affect health outcomes?
- How do culture and access shape healthcare experiences?
- What does health equity look like globally?

SKILLS YOU BUILD

- Cross-cultural communication skills
- Critical thinking about inequality and social justice
- Research skills grounded in real-world issues
- A global perspective valued by employers and graduate programs

REAL-WORLD RELEVANCE

- Health in Context: Understand how economic and social factors impact health
- Cultural Competence: Deliver care across diverse populations
- Community Health: Learn grassroots approaches to improving health outcomes
